Seafreight • Logistics • Airfreight

**“YES, IT’S
POSSIBLE”**

www.neptunecontainers.com

Foreword

We are in a world brought closer with economic synergies. Easy accessibility has also given rise to immense competition, with organizations vying to deliver quick, cost effective products and services to their global customers. In such a scenario, they need Service Providers offering customized solutions to help them maintain a lead over their competitors, and this is where we, NEPTUNE, come into play with **Logistical Solutions**.

Specifically, closer home the "Make in India" drive and the focus on infrastructure development, has led to new Projects being launched with aggression. We are well equipped to handle and operate within this segment by guiding our valued Customers with the best solutions to ensure safe and on time delivery of cargo.

In addition, we have developed new verticals like Container Trading & Leasing and Hazardous Cargo along with enhancing our NVOCC services. This has been done with a view to offer a one-stop solution when it comes to Logistics, to the Trade.

As the founder of this company, I say today with a lot of pride that the journey has been thrilling and successful. I have had the opportunity to work with and nurture incredible talent. As a Team we have achieved several milestones primarily because it's a well knit team with a strong base. Our capabilities have been honed over the last two and a half decades and our team works with a spirit of constant "Positivity, Accessibility and Versatility".

All our branches have shown exemplary progress, especially those of Delhi and Dubai, two very big markets having the maximum opportunity for growth and the others are not far behind.

Which is why, we can proudly say to **Our Customers** both in India and abroad – "Yes, It's Possible"

Dilip Ahuja
Managing Director

About Us

NEPTUNE was formed in the year 1990 and later incorporated in 1998 under the Indian Companies Act 1956. The prime objective of the organization was to provide Groupage and Logistical Services which were in line with global standards. Given the wide geographic spread of India and its strong economic ties with the Middle - East, the company today has **10 offices in the country across major ports / cities and 1 in Dubai**. This facilitates smooth growth for its customers at both ends of the spectrum with seamless solutions to transcend business with not only UAE but the GCC countries and other Important Regional Markets like Iraq, Africa, etc.

We specialize in providing services to various cargo segment types ranging from **huge project machinery to bulk grains and bulk liquids to perishables and hazardous chemicals**. To supplement this, we excel in providing specialised containers like Flat Racks, Super Racks, Open Tops, ISO Tanks and Reefers.

At NEPTUNE we are **focused on providing customers with flexibility** as we are well aware of the constraints especially when it comes to inland transportation, warehousing and documentation required for cargo movement in and out of India and also within the country.

Our **door-to-door deliveries and global presence** with an **Agency Network** covering 100 countries has made us an integral part of our customers' supply chain as we partner their growth. We have had a throughput of 16,000 to 18,000 teus per annum in the last 2 years and we thank our customers for the support.

Project Cargo

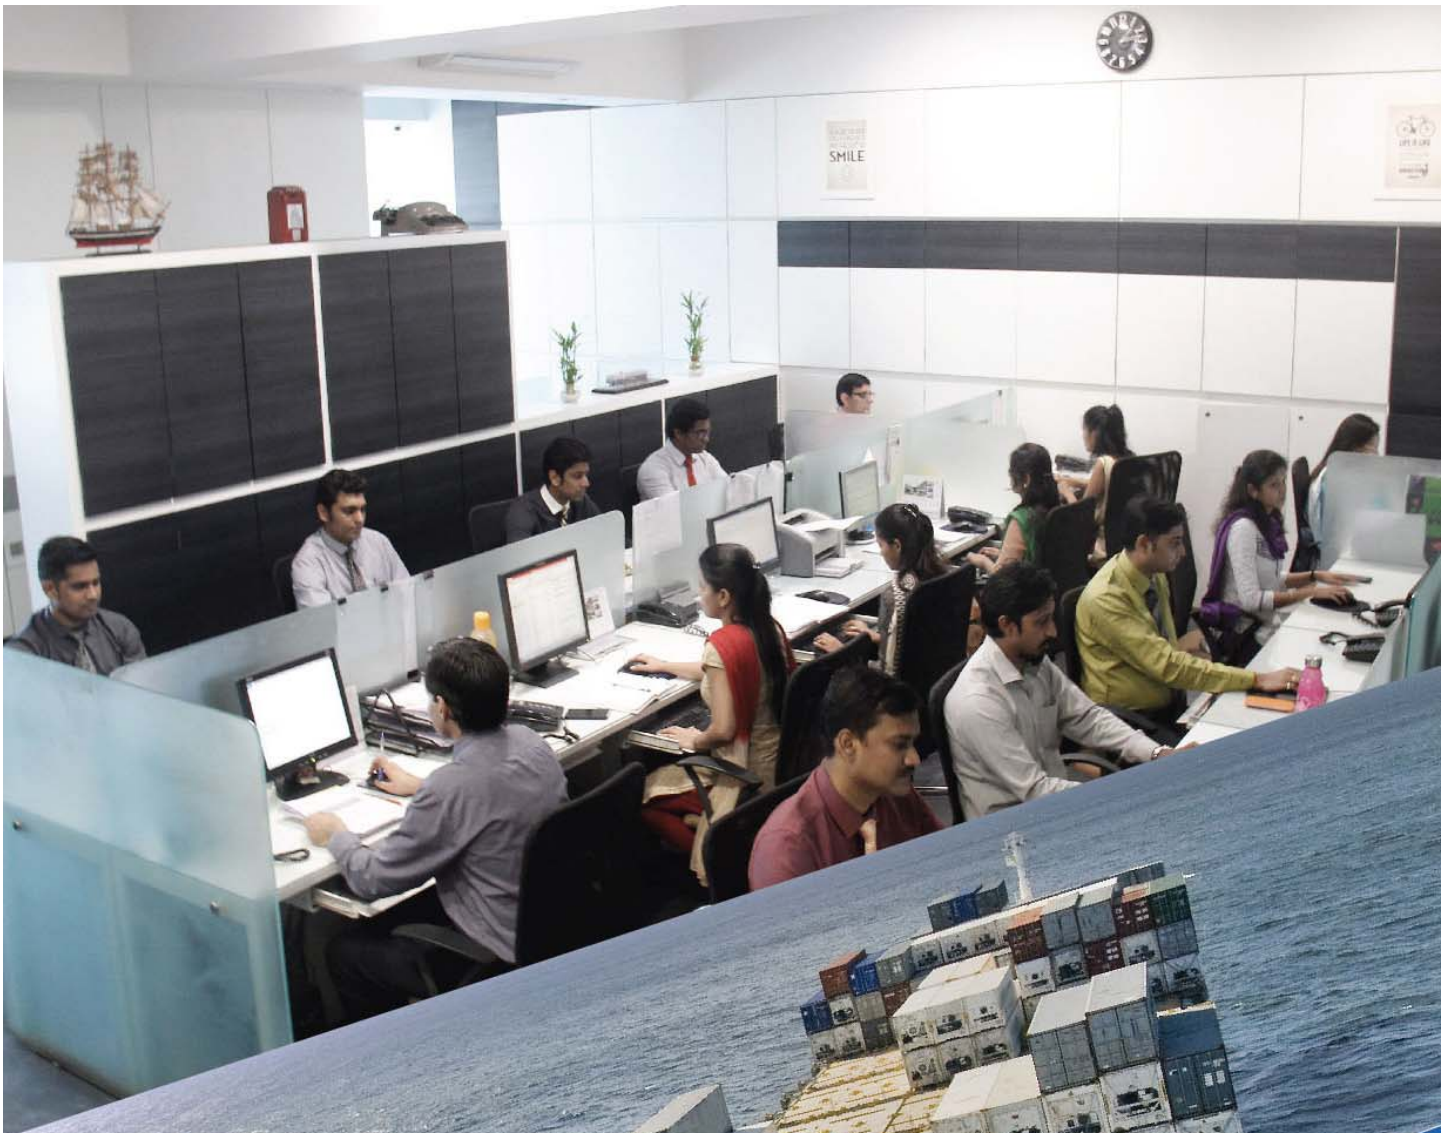

Transporting project cargo requires special expertise. The Logistics for Over Dimensional Cargo (ODC) is dependent on multimodal efforts and requires painstaking coordination at all stages. Our Project Cargo Division is well versed with not only the challenges of the Industry but is also trained to offer a service par excellence. We have been actively catering to Global MNCs and Indian Exporters, efficiently handling small and medium sized (with unit weights upto 44 mt) parcels with ease and finesse. The product types that we have catered to include Transformers, Plant and Machinery, Boilers, Vessels, Steel Structures, Earth Moving Equipment, Yachts, etc. to say the least.

Trade Lanes

With a focus on this niche market and a high level of commitment, the Company has carved out a name for itself in the Trade covering:

- ARABIAN GULF
- SOUTH EAST ASIA
- INDIAN SUB-CONTINENT
- EUROPE
- AFRICA
- SOUTH AMERICA
- CIS COUNTRIES

Through an extensive network of reputed agents we ensure that special equipments are made available across the Globe.

Hazardous Cargo

As the name suggests, this cargo needs a lot of preparation time and extremely specialized handling. We handle a large and regular volume of 'liquids, gases, solids' classified under the dangerous goods category, day after day. Customers using dry-van units or tank containers for cargo such as chemicals, dyes and gases have depended on our expertise for around 25 years. The team has been trained in this sensitive field and that simplifies the handling process.

Container Trading and Leasing

Keeping in mind our customers' needs, we facilitate the acquisition of shipping containers of all types for their project requirements not only in India but around the globe. This provides them with cost effectiveness and flexibility required to manage the nature of the projects and the vagaries of customs procedures in most countries in the world. Not only this, we also allow for customers to turn in older containers for newer ones from time to time thus ensuring ease. Standard Containers, Open Tops, Flat Racks, ISO Tanks, Reefers in 20' and 40' sizes along with **Domestic Leasing** are available with us.
